

same time, family literacy programs have successfully helped parents reduce their dependency on Federal assistance, obtain employment, or even advance in their current jobs. For children, the picture is just as bright. Children who participate in family literacy programs with their parents perform well in school.

Mr. Speaker, the legislation I am introducing will improve family literacy programs through several important changes to current law. For example, this legislation would authorize and provide funding for a research project to find the most effective ways to improve literacy among adults with reading difficulties. The National Institute for Child Health and Human Development has provided us with high quality scientific research on the best method for teaching children to read and the bill requires instructional programs for children to be based on scientifically based reading research. Unfortunately, there is no comparable body of research on teaching reading to adults. And yet, the statistics on adult illiteracy in this country are staggering.

According to the National Adult Literacy Survey, 40 million adults, or 20 percent of the U.S. adult population, scored at the lowest of five levels of literacy. In real terms, this means that 40 million adults struggle to maintain good jobs, have a difficult time supporting their children's education, and have poor participation rates in community activities. In order to have high quality family literacy programs, we need to ensure the instruction provided to both adult and child participants is based on sound scientific research on reading. By authorizing research on how adults learn to read as a part of this legislation, we are taking a positive step in this direction.

In addition, the LIFT Act would help raise the quality of family literacy programs by allowing States to use a portion of their Even Start dollars to provide training and technical assistance to Even Start providers. States would provide such training through a grant, contract, or other agreement with an organization experienced in providing quality training and technical assistance to family literacy instructors. States could not, however, reduce the level of service to program participants in order to provide such training and technical assistance.

The LIFT Act would also permit Even Start projects to operate for more than 8 years. I have heard from many projects that they will have difficulty continuing to operate once Federal support for their project is totally eliminated. As such, the LIFT Act would allow projects to receive Federal support for more than 8 years, but would reduce the level of support to 35 percent of the cost of operating the project. States would, however, be able to eliminate funding for any project if it did not meet program goals and State indicators of program quality.

The final change I want to highlight is a provision which would focus additional program dollars on high needs populations. Once funding for the Even Start Family Literacy Program reaches \$250 million, a total of 6 percent of funding would be reserved to serve migrants and Native Americans. These are some of our most vulnerable families and I believe it is most appropriate to use additional funds to

serve their needs. At the present time, a total of 5 percent of program dollars are reserved for Even Start projects for migrants and Native Americans.

Mr. Speaker, these are but a few of the highlights of this important legislation. Its enactment will ensure the long-term success of Even Start and other family literacy programs operated with Federal funds by providing for quality improvements. I urge my colleagues to join me in support of this legislation.

HONORING UAW LOCAL 599'S 60TH ANNIVERSARY AND THE RECIPIENTS OF THE "WALTER P. REUTHER DISTINGUISHED SERVICE AWARD"

---

**HON. DEBBIE STABENOW**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, November 4, 1999*

Ms. STABENOW. Mr. Speaker, I am pleased to recognize the 60th anniversary of UAW Local 599 which will be celebrated on November 6, 1999, and the men and women who will receive the "Walter P. Reuther Distinguished Service Award."

The same solidarity that began in 1937 and 44 days later resulted in the first major industry wide contract in the United States is still thriving today. During those 44 days and nights the members of the fledgling UAW and the Flint community forged an alliance which has endured for the past 60 years. The brothers and sisters of Local 599 continue to give back to the community that played such a pivotal role in their success. Local 599 has collected over \$1 million to help provide community residents with shelter, food, clothing, and medical care. They have coordinated the Marine Toys For Tots program which has given 10,000 children the overwhelming joy and excitement of a Christmas morning surprise for the past 10 years. The list of organizations to which they have given is long and includes the United Way, Easter Seals, American Cancer Society, Good Will, and the Salvation Army.

The "Walter P. Reuther Distinguished Service Award" is being presented to Robert Aidif, David Aiken, Dale Bingley, Dennis Carl, Jesse Collins, Russell W. Cook, Harvey "Whitey" De Groot, Patrick Dolan, Larry Farlin, Maurice "Mo" Felling, Ted Henderson, Ken Mead, Frank Molina, Shirley Prater, Gene Ridley, John D. Rogers, Dale Scanlon, G. Jean Garza-Smith, Robbie Stevens, Nick Vukovich, Jerry Ward, Greg Wheeler, Don Wilson, Tom Worden, and James Yaklin in recognition of 20 years of recorded service in an elective office in the local union. These individuals have served their union brothers and sisters of UAW Local 599 and their communities with unparalleled devotion and perseverance.

I would like to thank the men and women receiving the "Walter P. Reuther Distinguished Service Award" for their contributions and UAW Local 599 for 60 years of solidarity not only within the plant, but throughout the community. The union brothers and sisters of UAW Local 599 epitomize the values that have made our Nation great.

WOMEN'S HEALTH AND CANCER RIGHTS CONFORMING AMENDMENTS OF 1999

---

**HON. SUE W. KELLY**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, November 4, 1999*

Mrs. KELLY. Mr. Speaker, I rise today to introduce the Women's Health and Cancer Rights Conforming Amendments of 1999. This bill is a technical correction to legislation adopted by Congress last year that ensures reconstructive surgery coverage for all stages of reconstruction, including symmetrical reconstruction, for breast cancer patients.

In the last Congress I introduced H.R. 616, the Women's Health and Cancer Rights Act of 1998. A specific provision of this bill that requires coverage for reconstructive procedures after breast cancer surgery was passed into law in Title IX of the Omnibus Budget Bill. While passage of last year's legislation was a wonderful step forward, a loophole has been identified which seriously weakens the intent of this legislation. The bill I am proposing would correct this flaw by conforming the Internal Revenue Code of 1986 to the requirements consistent with the Women's Health and Cancer Rights Act. This change would provide a civil monetary penalty against those health plans who fail to provide coverage for breast reconstruction following mastectomy or other breast cancer surgery.

There is indeed precedence for such a technical correction. Similar corrections were made to the Internal Revenue Code as part of the Taxpayer's Relief Act of 1997 to ensure compliance to the Mental Health Parity Act of 1996 and the Newborns' and Mothers' Health Protection Act of 1996. The correction I am seeking today is like these and would ensure compliance to the Women's Health and Cancer Rights Act of 1998.

Studies have documented that the fear of losing a breast is a leading reason why women do not participate in early breast cancer detection programs. Now that coverage is guaranteed for reconstructive surgery following breast cancer surgery, it is time to put the teeth in that language and hold health plans accountable for providing that coverage. As we continue this month of Breast Cancer Awareness, let us make this important correction to ensure the best possible support for breast cancer victims.

CONCERN WITH THE NEXT ROUND OF THE WTO AND TRADE LIBERALIZATION

---

**HON. ENI F.H. FALEOMAVAEGA**

OF AMERICAN SAMOA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, November 4, 1999*

Mr. FALEOMAVAEGA. Mr. Speaker, the prospect of a "Millennium Round" of trade liberalization is inspiring heated debate both within the United States and the international community. While further liberalization could bring new opportunities for growth, there is much evidence that the costs of free trade
